Figure 1 is a scatter plot showing the relationship between the number of nodes in the network (X-axis, 0 to 18) and the number of nodes in the largest component (Y-axis, -25 to 25). The data points are scattered around the zero line, with a notable outlier at approximately (7, 24). The X-axis is labeled 'Number of nodes in the network' and the Y-axis is labeled 'Number of nodes in the largest component'.
